Hello Friends! This is your Wesley Meadows COVID-19 Update for July 5, 2022.

We have been notified that one employee from Wesley Meadows has been diagnosed with COVID-19. The employee is quarantined and is receiving appropriate care. We continue to follow the CDC's criteria for return to work for all employees.

We have notified public health officials and are following all recommendations provided by CMS and the Mississippi State Department of Health. Please note that the MSDH defines an outbreak in long-term care facilities as a single positive case among elders or employees. We closely adhere to the routine testing policy for elders and employees as laid out by CMS and the MSDH.

We have had quite a respite from COVID-19, but it appears cases are beginning to rise again. Now is the time to take precautions to prevent the spread of the virus. Vaccination remains the most effective way to prevent severe illness, hospitalization, and death from COVID-19. Everyone aged 5 and older should be fully vaccinated and those should receive a booster at the appropriate time.

We have had such wonderful visits over the past few months and encourage everyone to keep coming to visit. We look forward to visits from family members and friends. Please remember however, if you have been exposed to COVID-19 or are showing signs and symptoms of the virus please refrain from visiting.

As a reminder, family and staff members can continue to obtain regular COVID-19 updates by calling the hotline at 662-844-8977, Extension 234 or by going to mss.org/WesleyMeadows and clicking on the COVID-19 Update Button. We hope this helps keep you well informed. As always, if you have any questions, please feel free to contact the Wesley Meadows office at (662)429-2070.

Bless you and be safe!
