Hello Friends! This is your Martha Coker COVID-19 Update for September 28, 2021.

No new cases of COVID-19 have been reported over the past five weeks.

We continue following all recommendations provided by CMS and the Mississippi State Department of Health. Please note that the MSDH defines an outbreak in long-term care facilities as a **single** positive case among elders or employees.

COVID-19 cases are being reported in large numbers in Mississippi. The most recent news from the CDC is very encouraging for those who are fully vaccinated. The vaccine is available locally and if you have not yet received it, we encourage you to consider doing so.

In order to help provide our family and staff members with regular updates, we have created two ways to access campus COVID-19 updates. You can access campus specific updates by going to mss.org/MarthaCoker and clicking on the COVID-19 Update Button. You can also call 662-844-8977, Extension 225, our weekly update is recorded here. We hope this helps keep you well informed. As always, you can reach out to our team at Martha Coker for any questions you may have.

Bless you and be safe!
