

Hello Friends! This is your Dugan COVID-19 Update for July 23, 2021.

We are pleased to let you know that no new cases of COVID-19 have been identified in elders or employees over the past 24 weeks!

We continue following all recommendations provided by CMS and the Mississippi State Department of Health. Please note that the MSDH defines an outbreak in long-term care facilities as a single positive case among elders or more than one case among employees over a 14-day period.

Family and friends should visit. Outdoor visits are preferred but indoor areas are available as well. Regardless of the location of your visit, you must complete a screening form, sanitize your hands prior to visiting, wear a face covering that covers your nose and mouth and practice social distancing of six feet.

Throughout Mississippi, we are seeing an alarming rise in the number of cases reported. The vaccine is available for all over the age of 12. The most recent updates from the CDC are very encouraging for those who have received the vaccine. There are several locations you can receive the vaccine locally; if you have not yet, we encourage you to consider doing so at this time.

You can call 662-844-8977 Ext. 231 for a pre-recorded COVID-19 update at any time. As always, if you have any questions, please contact the Dugan team at (662)494-3640.

Bless you and be safe!
