

Hello Friends! This is your Methodist Senior Services Home Office COVID-19 Update for January 10, 2022.

We have been notified that an employee from the MSS Home Office Team has been diagnosed with COVID-19. The employee is quarantined at home and is receiving appropriate care. The employee typically works remotely, so potential team exposure has been limited.

We continue to follow all guidance set forth by state and federal officials for privacy, elder care, employee safety, and efforts to stop the spread of COVID-19.

The Omicron variant is causing a large spike in cases across the state of Mississippi. We encourage everyone to take all measures possible to slow the spread of the virus. Please practice social distancing, wear a mask, perform good hand sanitation and keep group gatherings few and small.

Vaccination remains the most effective way to prevent severe illness, hospitalization, and death from COVID-19. Everyone aged 5 and older should be fully vaccinated, and those 18 and over should receive a booster at the appropriate time.

Should you have any questions about exposure, please reach out to your supervisor for clarification and instruction.

Bless you and be safe!
