

Hello Friends! This is your Riggs Manor COVID-19 Update for January 3, 2022

We have been notified that one elder and two employees from Riggs Manor have been diagnosed with COVID-19. All are quarantined and are receiving appropriate care. We continue to follow the CDC's criteria for return to work for all employees.

As of today, we have a total of 6 elders and 7 employees who have tested positive for COVID-19 over the past few days. Currently everyone is either asymptomatic or only exhibiting mild symptoms. All other campus elders and employees tested negative for the virus today.

We have notified public health officials and are following all recommendations provided by CMS and the Mississippi State Department of Health. Please note that the MSDH defines an outbreak in long-term care facilities as a single positive case among elders or employees. We closely adhere to the routine testing policy for elders and employees as laid out by CMS and the MSDH.

COVID-19 cases and hospitalizations are rising rapidly in the state as the Omicron variant spreads. As per recent guidance issued by the MSDH, masks should be worn indoors in public places to reduce the risk of transmission. As always, be tested if you feel sick, talk to a doctor about appropriate treatment and remain at home if you test positive.

Group gatherings and indoor activities can be major contributors of COVID-19 transmission. Please keep these gatherings few and small.

Vaccination remains the most effective way to prevent severe illness, hospitalization, and death from COVID-19. Everyone aged 5 and older should be fully vaccinated, and those 18 and over should receive a booster at the appropriate time.

While we are currently open to indoor visits, it is critical that everyone take every measure possible to protect the elders and our team members. Please be mindful of the level of virus spread within your community and utilize all stated safety measure before visiting us at Riggs.
