

Hello Friends! This is your Traceway Campus COVID-19 Update for July 20, 2021.

Thankfully, we have had no further cases of COVID-19 at Traceway Manor in the past two weeks. Unfortunately, the elder who was infected did pass away from symptoms associated with COVID-19.

We are thankful that over the past 27 weeks, we have had no newly diagnosed cases of COVID-19 at Mitchell Center.

This morning, we had an employee from a Green House arrive at work not feeling well, she was tested prior to contact with any elders and she was positive for COVID-19. The employee is quarantined and receiving appropriate care. All elders and employees at Cedars Rehab and Recovery and the Green Houses will be tested on Thursday, July 22.

Patio visits may resume in all unaffected Green Houses; the Green House where the employee works has been notified. At this time, all visits will have to be outdoors due less than 70% of our elders accepting the vaccination and our county positivity rate. If your loved one is not vaccinated and you would like them to be, please notify Anitra Witherspoon, Director of Nursing, Tammy Martin, Administrator, or Kasie Wood, Executive Director.

We continue following all recommendations from CMS and the Mississippi State Department of Health. Remember, the MSDH defines an outbreak as a single case among elders or staff in long term care.

Distribution of vaccines is now being offered to all Mississippians over the age of 12. The most recent updates from the CDC are very encouraging for those who are vaccinated.

Covid-19 updates are available by calling 662-844-8977, Extension 224. As always, if you have any questions, please feel free to contact the Traceway office at (662)844-1441.

Bless you and be safe!
