

Hello Friends! This is your Trinity COVID-19 Update for January 11, 2022

We have been notified that six elders and four employees from Trinity Healthcare have tested positive for COVID-19. In addition, one employee from Trinity Assisted Living and two employees from the Apartments at Trinity Place have also tested positive for the virus. All positive individuals are quarantined and are receiving appropriate care. We continue to follow the CDC's criteria for return to work for all employees.

We have notified public health officials and are following all recommendations provided by CMS and the Mississippi State Department of Health. Please note that the MSDH defines an outbreak in long-term care facilities as a single positive case among elders or employees. We closely adhere to the routine testing policy for elders and employees as laid out by CMS and the MSDH.

The Omicron variant is causing a large spike in cases across the state of Mississippi. We encourage everyone to take all measures possible to slow the spread of the virus. Please practice social distancing, wear a mask, perform good hand sanitation and keep group gatherings few and small.

Vaccination remains the most effective way to prevent severe illness, hospitalization, and death from COVID-19. Everyone aged 5 and older should be fully vaccinated, and those 18 and over should receive a booster at the appropriate time.

While we are currently open to indoor visits, it is critical that everyone take every measure possible to protect the elders and our team members. Lowndes County currently has a 39.97% positivity rate for the virus. Visiting Trinity during an active outbreak places the visitor at an increased risk of contracting the virus, as well as passing the virus on to the elders and team members.
