

Hello Friends! This is your Wesley Meadows COVID-19 Update for July 27, 2021.

We wanted to let you know that we had an elder who lives in Apartment Living test positive for COVID-19. The elder was not out and about on the campus for several days prior to the positive test. The elder is quarantined and receiving appropriate care. At this time, we are continuing group activities and communal dining. We will be doing at least two more rounds of group testing over the next 14 days to insure there has been no spread.

We continue to follow all guidance set forth by state and federal officials for privacy, elder care, employee safety, and efforts to stop the spread of COVID-19. We continue to follow CDC criteria for employees returning to work.

We have notified public health officials and are following all recommendations provided by CMS and the Mississippi State Department of Health. Please note that the MSDH defines an outbreak in long-term care facilities as a single positive case among elders or employees.

Mississippi is currently seeing an increase in the numbers of cases diagnosed each day. The latest CDC news suggests that vaccinations offer a great deal of protection; if you have not vaccinated, please know that the option is available. The latest recommendations are to wear a mask regardless of vaccination status during periods of heightened transmission.

For access to COVID-19 updates, please call 662-844-8977 Extension 234. As always, you can reach out to our administrative office at Wesley Meadows for any questions you may have at (662)429-2070.

Bless you and be safe!
